Enter your reflective comments	I believe we continue to improve and grow in the areas of teaching and learning. We have a fully documented and guaranteed and viable curriculum, quality teacher practice and this year have improved staff data literacy which will lead to more informed practice in 2020. Our partnerships are building our community in particular with other schools, educational organisations, business and industry. Whilst we have had growth in aren't engagement, there is still work to be done in engaging parents in their children's learning.
Considerations for 2020	Considerations for 2020 are based on moving areas which are evolving up and moving excellence in teaching and learning to excelling
